

DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 17 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. The nearest prior art is Tsukuda (Materials Research Bulletin, Vol. 16, No. 4, April 1981).
4. The instant application claims a substrate with a black yttria spray coating generated by an electron beam process. These limitations are not obvious over the prior art.
5. Tsukuda discloses yttria sintered pieces which turned black when heated. However, Tsukuda is silent in regard to using the black yttria as a coating on a substrate.
6. Therefore, based on the nearest prior art, one would not expect to a black yttria coating on a substrate.
7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
